- **Underground Injection Control Tribal Consultation:** The UIC Program is actively engaging with tribes interested in permitting activities in Virginia and Pennsylvania. WD has been working closely with OCTEA to develop and implement procedures to provide meaningful consultation through prior outreach and identifying areas that tribes are interested in further consultation. WD has been providing the opportunity for consultation to the Seneca Nation (located in New York) for all UIC projects that take place within the Upper Allegheny River watershed. The opportunity for consultation has been offered to the Seneca Nation for four UIC projects. WD is actively consulting on two projects. WD has also provided the opportunity for consultation to all the seven federally-recognized tribes in Virginia in regard to the HRSD SWIFT project. WD is actively engaged in consultation with the Nansemond Tribe.
